DEFINITION AND SOURCE INFORMATION

Unit of Measurement*

Percentage

Calculation Methods*

The percentage is calculated as: numerator divided by denominator multiplied by 100.

Canadian Institute of Health Information (CIHI) Canadian Patient Experiences Survey—Inpatient Care (CPES)

Question 38: Did you receive enough information from hospital staff about what to do if you were worried about your condition or treatment after you left the hospital?

- Completely
- Quite a bit
- Partly
- Not at all

For patient experience questions, a “Top-box” method is recommended. “Top box” refers to the respondents who choose the only the most positive response.

Top-box Instructions: Add the number of respondents who responded “Completely” and divide by number of respondents who registered any response to this question (do not include non-respondents).

Numerator (short description i.e. not inclusions/exclusions)*

Number of respondents who responded "Completely"

Denominator (short description i.e. not inclusions/exclusions)*

Number of respondents who registered any response to this question.

Adjustment (risk, age/sex standardization)- generalized

None
