Residents' experience: Having a voice

INDICATOR DESCRIPTION

Description*

This indicator measures the percentage of residents who responded positively to the question: What number would you use to rate how well the staff listen to you?

Indicator Status*

Active

HQO Reporting tool/product

Quality Improvement Plans (QIPs)

Dimension*

Patient-centred

Type*

Outcome

DEFINITION AND SOURCE INFORMATION

Unit of Measurement*

Percentage

Calculation Methods*

The percentage is calculated as: numerator divided denominator times 100.

Numerator including inclusion/exclusion*

Homes using the **NHCAHPS Long-Stay Resident Survey** should measure this domain by calculating the percentage of residents who responded positively to the question: What number would you use to rate how well the staff listen to you?

- Add the number of respondents who responded '9' and '10' to the question: What number would you use to rate how well the staff listen to you?
- Responses are coded from 0 - 10, where 0 = worst possible and 10 = best possible.

Denominator including inclusion/exclusion*

Residents' experience:
Having a voice

For homes using the **NHCAHPS Long-Stay Resident Survey**, add the total number who registered any response to the question.

Exclusions:

- Non-respondents
